## Summary

Creative and detail-oriented Frontend Developer with 1.5 years of professional experience in designing, developing, and maintaining responsive web applications. Proficient in HTML, CSS, JavaScript, and popular frameworks like React and Vue.js. Adept at collaborating with cross-functional teams to deliver high-quality products that enhance user experience. Committed to staying updated with the latest industry trends and technologies to continuously improve skills and deliver innovative solutions.

---

## Skills

### Languages & Technologies:

- HTML5, CSS3, JavaScript (ES6+)
- TypeScript
- RESTful APIs
- JSON

### Frameworks & Libraries:

- React.js, Redux
- Vue.js, Vuex
- Bootstrap, Tailwind CSS
- jQuery

### Tools & Platforms:

- Git, GitHub
- Webpack, Babel
- npm, Yarn
- Visual Studio Code
- Figma, Adobe XD

### Testing:

- Jest
- Cypress
- React Testing Library

### Other:

- Agile/Scrum methodologies
- Responsive and Mobile-First Design

- Cross-Browser Compatibility
- 

## Professional Experience

### Frontend Developer

#### **XYZ Tech Solutions, City, State**

*January 2023 - Present*

- Developed and maintained responsive web applications using React and Redux, ensuring seamless user experiences across different devices.
- Collaborated with UX/UI designers to implement user-friendly interfaces that align with business goals and user needs.
- Utilized RESTful APIs to integrate backend services with frontend components, enhancing the functionality and performance of web applications.
- Optimized website performance by implementing lazy loading, code splitting, and other best practices, resulting in a 30% improvement in load times.
- Conducted code reviews and provided constructive feedback to junior developers, promoting best coding practices and maintaining code quality.
- Participated in daily stand-up meetings, sprint planning, and retrospectives as part of an Agile team, contributing to effective project management and timely delivery of features.

#### **Key Projects:**

- **E-Commerce Platform:** Led the frontend development of an e-commerce platform using React, integrating payment gateways and third-party services to enable secure and efficient transactions.
- **Employee Portal:** Developed a responsive employee portal with Vue.js, providing employees with easy access to company resources, announcements, and self-service tools.

### Junior Frontend Developer

#### **ABC Digital Agency, City, State**

*June 2022 - December 2022*

- Assisted in the development of various client projects, including landing pages, corporate websites, and single-page applications.
- Translated wireframes and mockups into interactive, responsive web pages using HTML, CSS, and JavaScript.
- Implemented animations and interactive elements to enhance user engagement and satisfaction.
- Worked closely with backend developers to integrate APIs and ensure seamless data flow between frontend and backend systems.
- Debugged and resolved cross-browser compatibility issues, ensuring consistent functionality across different browsers and devices.
- Contributed to the maintenance and improvement of existing codebases, applying refactoring techniques to enhance code readability and performance.

#### **Key Projects:**

- **Marketing Website:** Collaborated on the development of a marketing website for a major client, implementing a responsive design that improved user retention and lead generation.
  - **Event Management System:** Assisted in the creation of an event management system with Vue.js, providing users with tools to organize, schedule, and manage events effectively.
- 

## Education

### Bachelor of Science in Computer Science

University of Technology, City, State

*Graduated: May 2022*

#### Relevant Coursework:

- Web Development
  - Data Structures and Algorithms
  - Software Engineering
  - Human-Computer Interaction
  - Database Management Systems
- 

## Certifications

- **Front-End Web Developer Nanodegree** - Udacity
  - **JavaScript Algorithms and Data Structures** - freeCodeCamp
- 

## Projects

### Personal Portfolio Website

- Built a personal portfolio website using React and Tailwind CSS to showcase projects, skills, and experience.
- Implemented smooth scrolling, animations, and a responsive design to provide an engaging user experience.
- Deployed the website on GitHub Pages and configured a custom domain.

### Task Manager App

- Developed a task manager app with Vue.js and Vuex, allowing users to create, update, and delete tasks.
- Implemented state management to handle the application's data flow and improve performance.
- Used local storage to persist user data, ensuring tasks are saved even after page reloads.

### Weather Dashboard

- Created a weather dashboard using HTML, CSS, and JavaScript, integrating the OpenWeatherMap API to fetch real-time weather data.
- Implemented features such as search by city, current weather conditions, and a five-day forecast.

- Designed a responsive layout to ensure the dashboard is accessible on both desktop and mobile devices.
- 

## Volunteer Experience

### Web Development Mentor

#### CodeForGood, City, State

*September 2022 - Present*

- Mentored aspiring web developers in HTML, CSS, and JavaScript, providing guidance and feedback on their projects.
  - Conducted workshops and coding sessions to teach best practices and modern development techniques.
  - Assisted in organizing hackathons and coding events to promote coding literacy and community engagement.
- 

## Hobbies & Interests

- **Open Source Contribution:** Active contributor to open-source projects on GitHub, collaborating with developers worldwide to improve and maintain software.
  - **Tech Blogging:** Writes technical articles and tutorials on web development topics, sharing knowledge and insights with the developer community.
  - **Travel:** Enjoys traveling and exploring new cultures, using experiences to gain new perspectives and inspiration for creative solutions.
  - **Photography:** Passionate about photography, capturing moments and landscapes to express creativity and attention to detail.
-
